

DA Assignment 3

Objective:

The objective of this assignment is to familiarize students with advanced data manipulation techniques using sets in Tableau.

- Define at least two sets based on specific criteria from your dataset (e.g., high-value customers, top-performing products).
- Experiment with combining sets using UNION, INTERSECT, and MINUS operations.
- Create 2 Calculation field using any aggregate function
- Create any 3 visualization using quick Table Calculations

Dataset: Kindly Use Superstore Dataset

Submission Guidelines:

- Submit your Tableau workbook file (.twbx) along with the dataset used.
- Include the documentation in PDF format.
- Ensure clear labeling and organization of files.
